WITHDRAW CONSENT

Many questions arise upon a diagnosis of myeloma. A consultation with a myeloma specialist can give you the answers you need and help guide your treatment selection.

Getting started

- ☐ What type of myeloma do I have?
- ☐ What stage of myeloma do I have?
- ☐ Do I have standard-risk or high-risk myeloma?
- ☐ Will my age or other health issues affect my treatment options or treatment outcome?
- ☐ Which factors in my case indicate a good or a poor prognosis?
- ☐ What is the length of expected survival with myeloma?

Treatment planning

- ☐ What tests do I need to have performed before we can decide on treatment?
- ☐ What are my treatment options? Are some more toxic than others?
- ☐ Is a stem cell transplant recommended in my case?
- ☐ Will I receive treatment by infusion, by injection, or by mouth?
- ☐ Will I receive treatment at a clinic or at home?
